To whom it may concern:

I benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that is not available elsewhere. Most Local stations do not provide timely reports. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.
